REPORT OF SCHOOL BOARD.

We are of the opinion that our schools have enjoyed their usual measure of success the past year and that we have been fortunate in securing able and faithful teachers, who, as a rule, have given good satisfaction.

There has been no serious difficulty in any school, but unusual pleasantness has prevailed, while the discipline has been good. In some of the schools there has been a marked improvement in the style and manners of the pupils.

Irregular attendance is still a great drawback to success, but in some of the schools this fault has been partially remedied and it has been done largely through the influence of the teachers. It would be well for parents to consider that when they allow their children to be absent from school for trivial causes, they not only do *them* an injury, but all the members of their classes as well.

We hope that the services of many of the teachers may be secured for another year. It is not good economy to employ any but first class teachers.

We were notified by the secretary of the state board of health, that, as smallpox was prevailing in some parts of the state, we must comply with the law in regard to vaccination, and a large proportion of the children have done so.

It will be the duty of the school board at the beginning of the next school year to allow no child to enter school who has not been vaccinated.

The schoolhouse in No. 15 has been shingled, and those in No. 3 and in No. 13, painted.

Most of the children in town are now provided with comfortable schoolhouses with the exception of those in No. 10. The schools there have been kept in private houses for many years. The present number of scholars requires better accommodations. We think they are entitled to a new schoolhouse.
